

Meritor Parts

Meritor Parts - Meritor is a leading international dealer that is proudly established on a one hundred year custom of quality and service. They specialize in a broad range of integrated systems, modules and components to original machinery manufacturers and the aftermarket for the transportation and industrial sectors.

Meritor values the needs of their customers to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their worldwide operations. Meritor begins with a philosophy that values diversity of individuals and their broad thought processes. Operating in 19 countries and employing more than 11,200 people, Meritor promotes innovation and collaboration among a team of knowledgeable experts.

By just hiring future focused employees, Meritor strongly feels these top-caliber individuals will be able to quickly get used to to changing environments and exhibit the commitment and performance needed so as to reach results in the competitive materials handling trade. The company empowers their teams to make sound business decisions in order to improve the overall success of the company. In return, Meritor provides all their employees different opportunities for personal and professional development.

The Advanced Engineering team is on the forefront of components and system engineering. This consists of drivelines, axles, suspension and braking systems utilized for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the entire Asia Pacific region. This team is even responsible for supporting the requirements of all their global engineering workers.

The Quality team at Meritor is a dynamic and customer-focused group which is devoted to ensuring optimum progress at their production plants and aftermarket distribution facilities which are situated on 5 continents and in 19 countries.

The supplier development network is particularly situated to be able to support new business growth. Regional teams are supported by worldwide centralized specialties, initiatives and quality systems in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based method to decision making in every aspect of the company. The DFSS or Design for Six Sigma ensures product reliability within every region. The team is even comprised of transactional Green Belts who apply Six Sigma tools to business techniques and apply lean methods.
