Clark's extraordinary Parts Distribution Centers are conveniently stationed in Louisville, Kentucky, which serves both their consumers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Driven to provide the highest level of value and service to our users, Clark remains on the leading edge when it comes to improving productivity and benefiting performance.

Internationally, Clark has one of the most impressive supplier support networks. With over 550 locations worldwide, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their customers predominates the materials handling industry.

By revolutionizing the operator restraint system protection feature, Clark proudly remains a leader of innovation in the industrial equipment and automated forklift industry. This exceptional commitment to safety is now a customary feature on every lift truck.

Clark's recurrent mission to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift producer across the globe to be certified with the internationally accepted quality standard ISO 9001 for each and every one of their production facilities. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any number of environmental restrictions, thus placing them in a dominant industry position.

Clark has selected the very economical and advantageous structure of "Lean Manufacturing" for its assembly plants and use of resources. This system was established to acknowledge the most effective approaches of manufacturing plant stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to upgrade the proficiency and brilliance of their merchandise while minimizing expenses. The contemporary value engineering program combines progressive product growth and offers superior consumer support and service within the industry.
