

Rockwell Parts

Rockwell Parts - AxleTech International is a leading dealer in the world of specialty vehicle drive-train systems and components together with off highway vehicles. The business prides itself on being its clients' preferred supplier. AxleTech strives to meet and exceed their customers' expectations for technology, delivery, quality and service. They believe in working within an environment which encourages the utmost integrity with empowered teamwork, together with a persistent pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great emphasis on being an environmentally conscious company and offering a safe atmosphere for their workers to work in. Also, they have applied lots of programs within the corporation to be able to help convey these values within their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with any comments or questions, since they are happy to share and promote this policy with a greater understanding of their efforts. They are extremely dedicated to preserving and improving the environment. AxleTech has an EHS program which not only protects the natural environment but which likewise actively protects their neighbors and workers also.

AxleTech prides themselves as being an innovative drive-train solutions provider. They specialize in manufacturing and designing planetary axles used for both military and commercial applications. These applications vary from airport ground support to construction equipment. AxleTech specially designs axles in order to meet particular application demands. They have more than 1000 various axle specs within their current offering. With more than one hundred years of history and experience, AxleTech proudly supplies the most complete solution for whatever of your axle needs. The business is well known in many commercial and military applications. They offer complete axle assemblies for aftermarket replacement requirements, along with servicing axle needs for OE production. Their high mobility ISAS have extra details which could be found in the "ISAS" product collection.
